

Satire Assignment

Satire is the use of humor or irony to expose or attack corrupt or foolish behavior. (Often it is the behavior of politicians or other public figures that is exposed in satire).

For this assignment you will create an example of satire.

Instructions:

1. Select an individual, group or event to satirize (look for something that is corrupt or foolish).
2. Think of a way to **point out the corrupt or foolish aspect** of that individual, group or event.
3. For example, one of the cartoons shown in class is a catapult to point out the fact that the Canadian military lacks up-to-date weapons
4. Choose a method for delivering your satirical message: cartoon, drama (a short sketch), or short written composition (similar to the one on smoking).

Evaluation

Your satire assignment must demonstrate the following:
